Weatherproof and Robust Exciters/Resonators

for music and voice reproductions via surfaces capable of vibrating. These resonators are simply screwed onto doors, cupboard doors, shelves, desktops, lightweight walls, ceiling panels or many other surfaces which are capable of vibrating. Vibration of these surfaces already create a partly impressive sound in the entire surrounding area. These resonators are not suitable for use on glass surfaces!

Weatherproof audio exciter/resonator, 8 Ω

- Depending on the mounting surface, very wide bandwidth reproduction with amazing volumes
- Very robust and weatherproof version, thus suitable for outdoor applications and in an extra dirty environment
- Suitable for home and outdoor PA applications, e.g. on doors, cupboards, shelves and on boats
- Waterproof (IP68)
- Supplied with screwable mounting plate
