◼︎ Instructions for Use

BUTTON

• Long press to turn off the power, short press to turn on the power.

• Short press to switch input source, the input will switch between USB and Bluetooth.

Operating instructions

Connect the relevant cables and install the Bluetooth antenna before powering up the B200. Please use the USB TYPE-C cable to connect SMSL B200, the screen will light up and enter the display of the current input information, it will be able to operate normally.

• **The first time Bluetooth playback:**
  After the B200 is powered on, the Bluetooth will be in the state of "searching". Please short press the touch button on the machine to switch the input source, make sure the screen shows "BT&USB". On the other hand, please turn on the Bluetooth of your cell phone/computer, user can see the option of "Search Device" in the Bluetooth interface, clicking on it will automatically search for the nearby Bluetooth devices in the state of "searchable" (some cell phones will automatically search for the devices after turning on the Bluetooth, and there is no need for the user to manually click on it). In the "Available Devices" column, we can see that the Bluetooth device named "SMSL B200" has been searched. Finally, click Confirm to finish matching Bluetooth.

• **PC playback:**
  Only need to connect the B200 to any USB port on your computer via USB TYPE-C cable. Once plugged in, the computer will automatically recognize the external device. Users can click the speaker icon in the lower right corner of the computer desktop to switch the B200
